WORK EXPERIENCE

72 DRAGONS | FRONT END DEVELOPER

Remote, IN | Sep 2022 – Current

- Developed and maintained responsive frontend interfaces for websites, CMS tools, dashboards, and email templates using HTML, CSS, JavaScript, jQuery, PHP, and ReactJS.
- Ensured seamless performance and compatibility across desktop, tablet, and mobile devices through responsive design and cross-browser testing.
- Integrated RESTful APIs to fetch, manipulate, and display real-time data across tools and dashboards, improving interactivity and functionality.
- Utilized advanced libraries such as D3.js and Plotly.js to create interactive org charts, graphs, and data visualizations that enhance analytics and user engagement.
- Optimized website performance by applying caching, lazy loading, and code minification to improve load times and overall user experience.
- Used Google PageSpeed Insights and SEO optimization techniques to enhance performance, accessibility, and search visibility.
- Worked as a Team Lead managing a team of 5 developers, delivering 10+ successful projects including websites, CMS tools, and dashboards with a 95% client satisfaction rate.
- Communicated directly with clients to gather requirements, provide updates, and ensure timely and accurate project delivery.
- Applied design patterns, reusable components, and modular JavaScript functions to ensure code scalability, maintainability, and clean architecture.
- Employed CDNs and third-party libraries for faster content delivery and efficient website performance.
- Conducted device and performance testing to ensure high-quality, bug-free, and fast-loading web applications.
- Collaborated with backend developers to integrate APIs, debug functionality, and ensure smooth communication between frontend and backend systems.
- Demonstrated strong leadership, problem-solving, adaptability, and excellent communication skills to consistently deliver high-quality projects on schedule.

PROJECTS

PORTFOLIO

REACT, HTML, CSS, JAVASCRIPT

I created this website to showcase my skills, projects, and professional journey, highlighting my expertise and passion. It reflects my ability to deliver creative and user-focused solutions.

YOUTHMONK WEBSITE

HTML, CSS, JAVASCRIPT, SCSS, BOOTSTRAP
